

GCSE Results 2019

Number of students in cohort: 91

The percentage of students achieving a grade 4 or higher in English is 64% and in Maths is 57%.

47% of students achieved a Grade 4 or higher in both English and Maths.

These results show a slight improvement on results from 2018 in both English and Maths at grade 4 or higher. It has been particularly pleasing to see an improvement in the number of higher-grade passes our students have achieved this year in several subjects including English and Maths. The number of students who have gained English and maths at grade 5 or above has improved by 10% from 2018. We are also pleased to highlight that initial progress scores for the cohort are showing a steady improvement. There have been some particularly good outcomes in Maths and Science this year as well as many of our vocational subjects, most notably Business Studies and Sport, performing exceptionally well.

Quote/Comment from Mr Mark Woodhouse, Principal:

Whilst it is pleasing to see the steady improvement in the outcomes for the academy this year these results are the product of much hard work from all of our students and they should be deservedly proud of their achievements. Our students have not only shown with these qualifications that they have the academic ability to be successful in their futures we have been delighted to see the skills and qualities develop in our students to set them well for their futures. Well done to all our students and we wish them every success in their future endeavours.

Quote/Comment from Susan Byles, Regional Education Director, Academy Transformation Trust:

I would like to congratulate the Year 11 students and their teachers for the results achieved this year. Individual students have achieved considerable success in a range of subjects and we wish them well in the next stage of their educational journey. It is particularly pleasing to see the improvement by 10% in the percentage of students achieving the higher grades in both English and Maths. This set of results represents a two-year trend of improving GCSE results at The Nicholas Hamond Academy. Well done to all the students and staff at the academy!

	2017	2018	2019*
% 4+ in English and Maths	50%	47%	47%
